

ST MARY'S COUNTY AMATEUR RADIO ASSOCIATION

AMATEUR RADIO EMERGENCY SERVICES

6/12/23 2300Z

Members present: KB2SKP-Chris, AC3CU-Neil, N3AK- Jon, KC3RWE-Brad, KB1YZ-Jim, W3OST-Rick, KC3WBR-Rob

Chris opened the net at 2300Z, with no specific topic in mind. He said that Jim Montgomery will be coming down to discuss the September set and what it will be composed of for the July Meeting. He reminded us to keep an eye on the weather as it is supposed to get strange. There is a Sky Warn basic class in Calvert on Jun 15th and an advanced class in Leonardtown on Jun 21. You need the basic class to attend the advanced class. He is also planning on some exercises for the net; nothing area wide, just local, like maybe a park or some other type of local area to have a fox hunt just to get familiar with operating our equipment.

Neil didn't have a lot to add, just taking it one day at a time and looking forward for the June 19th meeting.

Jon has nothing to add. He was wondering if anyone had used sky warn to update weather service about the storm last week. Chris says that he did not hear of anyone sending in any reports.

Brad reported that the sky warn net is basically in St. Mary's, Calvert, Charles and he thinks Anne Arundel. The net is actual run by a Calvert amateur operator when it is activated.

Jim says that everything is going good. He said that he will be taking the sky warn class in Calvert. Looking forward to the in person meeting.

Rick is doing good. Planning on going to the meeting on the 19th. He said that he will be bringing his radio to check operations. He will be taking the sky warn class.

Rob is looking forward to the Monday meeting and will be bringing his radios and checking programming. He is looking to get on Winlink soon.

John had been listening to the entire net but had no transmit on his new radio. Looking forward to the Monday night meeting.

Chris closed the net at 2332Z.
