Amateur Radio Emergency Service

6/10/24 2300Z

Members present: KB2SKP-Chris, AC3CU-Neil, AC3FE-John, KB1YZ-Jim,
W3OST-Rick, KC3UYF-Tracey, KF4AH-Andrew, W4NRZ-
N3AK-Jon

Chris opened the net, on C4FM, at 2300Z and asked for any formal traffic for the net, there was none. He then asked for any announcements for the net, there was none. Chris believes that we can incorporate digital exercises in the future as this could be a viable route for communications.

Neil is using the 991A and the repeater tonight. Everyone sounds great and I have nothing more for tonight.

John is finally able to get on digital. It sounds a little different from regular FM. He had to work a little to get into the C4FM and hopes that he can get back to where he started.

Jim is doing good. It sounds a little different from FM. He wanted to know the difference between C4FM and wires-X. Chris is going to find a clearer definition of the terms.

Tracey is now in Oakville and is now loud and clear. He likes enjoying the digital exercise.

Rick is doing okay. He is using his FTM400, and everything is working good.

Andrew just checked in to say hello. He is enjoying the net. He has gotten on digital a few other times and enjoyed it. Chris mentioned that he would like to get the other counties interested in a joint digital net.

Jon is using the repeater. He had to push a few extra buttons to get it working but is interested in doing more digital exercises.

Chris, I missed one call sign and name, I have W4NRZ for a call sign but didn't get the name.

Chris closed the net at 2329Z.
